

AWS. Helping people thrive.

Supported Living helps individuals move from their family home, institution or group home into the community.

Family Support allows families with a member who has a disability to stay together.

Semi-Independent Living assists people in their homes with the goal of promoting greater independence.

Employment Services help people become a part of the community workforce.

Job Retention provides long-term career development services.

Production Facilities are workshops that provide hands-on experience and training, which can lead to successful employment in the community.

Post Masters is a part of the workshop environment. It offers complete mailing services to businesses.

A. Wayne Advantage teaches lifestyle, educational and social skills to adults with disabilities.

Group Homes are for kids or adults with disabilities ages four and up.

DeafLink offers interpreting services.

Home Ownership assists people in purchasing their own homes.

HomePointe offers personal assistance to older adults.

Red Cedar is a unique facility where kids camp, swim and learn how to ride horses. A place where kids can be kids.

Tahcumwah Sports and Recreation is an integrated sports complex where kids and adults can play team sports.

Indiana Epilepsy Services provides services free of charge to anyone who makes a request. Includes information, advocacy and support groups.

Summer Enrichment Program allows kids to retain skills learned during the school year.

Infant & Toddler Services
How children blossom.

As parents, you want what's best for your child. However, for some children, it takes a little more care and nurturing. For these children, there is AWS Infant and Toddler Services. We are a source if you have a child, age birth to three years, with a medical diagnosis, a developmental delay or biologically at risk for developing a problem.

AWS Infant and Toddler Services provides resources for parents who are in need of sound advice, answers to questions, infant assessment, developmental direction and other forms of support.

From love grows hope.

During times of uncertainty, when you can be anxious about the future, our professionalism and experience can be a voice of support, guidance and hope.

Bloom Develop Flourish

Every child's potential discovered.

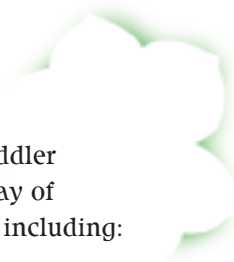

More than anything else, your child needs a good start in life. In the most formative period of their entire lives, it is absolutely critical that they receive every opportunity to grow and develop to their greatest potential. AWS Infant and Toddler Services provides a wide array of therapies for your child, that can be integrated into their daily routines and activities. We also give you, other caregivers and loved ones the training, information and tools needed to help your child reach that potential.

We believe that every child is unique. Because of that, we do not generate cookie-cutter solutions. At AWS Infant and Toddler Services, our programs are designed with the best interest of your child in mind. We collaborate with everyone who is involved with your child, and as a team, we develop the plan.
